

06. Type of non-tradable

First, we must know that the path made by sea or air route , there are a standard set of customs documents , including :

- + A written application for non-commercial production
- + 2 sets Invoice , Packing List
- + Introduction
- + Is the second most important non-trade declarations (a customs hold and keep the rest of us)
- + Other related papers (fumigation , red bill ...)

We should note the following points about every African Export Trade

- Of non-tradable goods , almost certainly will be tested chemicals
- Every non-commercial export customs declaration declaration by not using paper or electronic customs customs remote
- Goods of non-trade tariff of 0% rather than no tax
- Goods of non-trade limit on the value of the goods on the customs declaration (usually not more than 5000USD) . When customers send us the Invoice value of goods if too high , we had to be reduced to less than 5000USD by the Invoice . Customs will not refute much if our goods are normal goods . If you are sensitive products such as stone , wood , high -value products , Customs will examine and refute money .
